Strategies for FP2020 for Enhancing Quality of Care in the Context of Rights-Based Family Planning		FP2020, Population Council	20 June 2017	9:00 am EST	Washington, DC
WHO Implementing Best Practices Consortium (IBP) and the High-Impact Practices in Family Planning Initiative Partners Meeting	In recognition of the mutual objectives of the High Impact Practices (HIPs) and the Implementing Best Practices (IBP) Consortium to support evidence-based programming, we have decided to combine efforts and organize a joint meeting. The theme for this meeting is: "Galvanizing Commitment in Family Planning to Achieve Development Objectives." Meeting objectives: Update on HIP and IBP Activities Identify complementary priorities for HIPs and IBP in conjunction with larger global initiatives Exchange lessons learned on use of evidence-based tools and approaches We believe combining these efforts will provide greater efficiencies for both IBP and the HIPs as well as help foster stronger partnerships with FP2020, UNFPA, WHO and other global partners. We invite IBP Consortium members and HIP partners to attend. Learn more here .	WHO/Implementing Best Practices Consortium and the High-Impact Practices	29 June 2017	8:30 am EST	Washington, D.C.

Youth Networking Reception	The Youth Networking Reception will bring together members of the Youth Advisory Group, the Youth Engagement Working Group, as well as a select group of adult allies and champions, including speakers, panelists, and partners of the Family Planning Summit. The reception will be an informal opportunity to make connections and create a network of support ahead of the official Summit events. Not only does this session provide a good opportunity for youth advocates to meet with allies and champions, but it provides adult allies the opportunity to hear the often unheard voices, perspectives, and expertise of youth advocates working towards SRHR and universal access to contraception. This event is hosted by the Youth Advisory Group, with support from CIFF. Participation is by invitation only. Parallel Session on the Ouagadougou Partnership	The Ouagadougou Partnership is a model of coordination and regional solidarity based on results and accountability. The Ministers of Health from the nine countries of the Partnership (Benin, Burkina Faso, Ivory Coast, Guinea, Mali, Mauritania, Niger, Senegal and Togo) will discuss their commitment to family planning in the pursuit of national objectives. There will be discussion on the following themes: (1) youth access to sexual and reproductive health services; (2) financing for family planning; (3) expanding the range of methods available, including through task sharing and the private sector; and (4) supply chain, including the role of the private sector. This event is invite only.	Ouagadougou Partnership	10 July 2017	1:00 pm BST	London, UK
Ministers of Finance Meeting	The World Bank Group and the Global Financing Facility will support the summit co-hosts in holding a side event specifically for Ministers of Finance from the FP2020 commitment making countries. This event will explore the economic and financial benefits of family planning as a best-buy within human development and examine how countries have successfully capitalised on these investments. In particular, this event will look at making money work harder, through innovative use and increased efficiency of funding and bringing new partners to the table. Sustainability is critical, but can only be ensured through mobilisation of domestic resources.	The World Bank Group and the Global Financing Facility	10 July 2017	3:00 pm BST	London, UK

<p>A win-win for human and environmental health: How conservation programmes can be strengthened by meeting family planning needs</p>	<p>Our event will feature a discussion on the importance of considering family planning actions not only as essential for the health and empowerment of girls and women, but also as fundamental for the success of conservation programmes. As you very well know, UN projections of the population of Africa foresee a rise from around 1 billion today, to around 4 billion by 2100. Our event asks whether many traditional conservation projects can possibly be successful in the long term if this reality is not taken into account in conservation programming and climate change response and resilience building. "Population, Health & Environment" programmes integrate conservation and family planning actions, have taken these demographic realities into account, and have been demonstrated to lead to greater conservation, health and gender outcomes than single sector "conservation" projects. These Population, Health & Environment programmes look likely to become increasingly significant and are gaining some traction. A Feminist Approach to International Assistance	Women and girls around the world are powerful agents of change and development, and with sustained efforts to amplify their voices globally, they can reduce poverty and hunger, and contribute to a future that is inclusive and more peaceful. In a time when millions of women and girls around the world have unequal access to resources and opportunities, Canada steps up and plays a leading role on the international stage by placing women and girls at the heart of its international assistance efforts. At this event the Canadian Minister of International Development and La Francophonie, Marie-Claude Bibeau delivers a keynote speech, offering her	Overseas Development Institute	11 July 2017	6:00 pm BST	London, UK and livestream available
